INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council City of Lebanon, Illinois:

Report on the Financial Statements

We have audited the accompanying financial statements of the of the City of Lebanon, Illinois as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the governmental funds financial statements in accordance with the modified cash basis of accounting as described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the presentation of the governmental fund financial statements in the circumstances. Management is also responsible for the preparation and fair presentation of the business-type and proprietary fund financial statements in accordance with accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities (modified cash basis), the business-type activities (accrual basis), each major fund (governmental-modified cash basis, proprietary-accrual basis), and the aggregate remaining fund information of the City of Lebanon, Illinois as of April 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with the basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The governmental fund financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Required Supplementary Information/Other Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 4 to 10), budgetary comparison information (pages 38 to 39) and schedules of pension funding information (pages 40 to 41) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Lebanon, Illinois' basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 29, 2021 on our consideration of the City of Lebanon, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Lebanon, Illinois' internal control over financial reporting and compliance.

<u>CITY OF LEBANON, ILLINOIS</u> MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Lebanon, Illinois' (City) annual audit presents a management's discussion and analysis of the City's financial activity during the fiscal year ended April 30, 2021. The Management's Discussion and Analysis (MD&A) is designed to focus on current activities, resulting changes and currently known facts and should be read in conjunction with the basic financial statements and footnotes. Responsibility for the completeness and fairness of this information rests with the City.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. There are three components to the basic statements:

- 1. Government-wide financial statements
- 2. Fund financial statements
- 3. Notes to the basic financial statements

This report also contains required supplementary information/other information and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The government-wide financial statements exclude fiduciary fund activities.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, and cemetery. The business-type activities include water and sewer.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. Changes in net position are reported on the modified cash basis for the governmental activities and on the accrual basis for the business-type activities.

<u>CITY OF LEBANON, ILLINOIS</u> MANAGEMENT'S DISCUSSION AND ANALYSIS

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental and proprietary.

Governmental Funds. Governmental funds are used to account for essential functions reported as governmental activities in the government-wide financial statements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. Both of the governmental fund financial statements provide a reconciliation to facilitate this comparison between governmental funds and the government-wide governmental activities.

The City maintains five individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for two major funds: General Fund and Motor Fuel Tax Fund. Data from the other governmental funds are combined into a single, aggregated presentation called "Other Governmental Funds." Individual fund data for each of these nonmajor governmental funds is provided in the form of combining schedules in the other supplementary information section of this report.

The City adopts an annual budget for all governmental funds. Budgetary comparison schedules for the major funds have been provided to demonstrate legal compliance with the adopted budget.

Proprietary funds. Enterprise funds are used to report the same functions and the same type of information presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations.

Notes to the financial statements. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required supplementary information/Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information/other information concerning the City's progress in funding its obligation to provide pension benefits to its employees. The City also reports expenditures of its major funds in comparison to budgeted amounts.

Other supplementary information. The combining and individual fund statements, referred to earlier in connection with nonmajor governmental funds, are presented immediately following the required supplementary information/other information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City presents its financial statements under the reporting model pursuant to Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$13,965,555 at the close of the most recent fiscal year.

The largest portion of the City's net assets reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and infrastructure), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The condensed statement of net position is as follows:

	Government	al Activities	Business-ty	pe Activities	Total		
	April 30, 2021	April 30, 2020	April 30, 2021	April 30, 2020	April 30, 2021	April 30, 2020

Total net position	\$ 5,233,428	\$ 5,018,612	\$ 8,732,127	\$ 8,211,934	\$ 13,965,555	\$ 13,230,546	

Total net position increased \$735,009 resulting in a balance of \$13,965,555 as of April 30, 2021. Current assets, which include cash, investments and accounts receivable, increased \$831,960. Non-current assets increased \$1,156,372. Current liabilities, which include accounts payable, advance payments for water and sewer tap deposits and customer deposits, decreased \$239,867. Long-term liabilities increased \$1,424,716 primarily due to the additional debt related to the WWTP upgrade.

ANALYSIS OF NET POSITION

		2021	2020			
Analysis of Net Position	Percent	Amount	Percent	Amount		
Net invested in capital assets	76.6%	\$ 10,695,297	83.8%	\$ 11,089,110		
Restricted	7.5%	1,047,678	6.7%	886,296		
Unrestricted	<u>15.9</u> %	2,222,580	<u>9.5</u> %	1,255,140		
Total net position	100.0%	<u>\$ 13,965,555</u>	100.0%	\$ 13,230,546		

Total net position balances increased by \$735,009 in fiscal year 2021 to a total ending balance of \$13,965,555. Capital net position balances decreased by \$393,813 in the current year due to capital additions of \$1,523,083 that were offset by depreciation of \$362,944 and additional capital related debt. The combined restricted and unrestricted net position balances changed by the net income of operating activities. The revenue and expenditure comparisons that comprise the current year increases follow.

GOVERNMENTAL ACTIVITIES

Revenues by type	<u>2021</u>	<u>2020</u>
Property tax	\$ 305,393	\$ 290,716
Other charges for services	196,371	352,784
Sales and use tax	693,115	668,388
State income tax	506,468	478,842
Motor fuel tax	156,731	159,707
Replacement tax	6,305	6,270
Telecommunications tax	48,905	66,024
Video gaming tax	45,248	73,546
Utility tax	244,669	239,150
Operating grants and contributions	182,254	35,000
Capital grants and contributions	164,882	-
Franchise fees	41,558	40,090
Investment Income	35,686	8,638
Other miscellaneous	 29,348	15,602
	\$ 2,656,933	\$ 2,434,757

Total governmental revenues increased \$222,176 for the year ended April 30, 2021. The primary reason for the increase is the grant revenue related to the Rebuild Illinois grant and Covid reimbursement funding. Sales taxes and income taxes both reported increases in the current year.

		2021		2020			
Expenditures by category	Percent	Amount	Percent	Amount			
General government	13.7%	\$ 334,983	14.1%	\$ 333,332			
Public safety	53.9%	1,316,478	53.2%	1,255,972			
Highways and streets	30.5%	745,857	27.9%	657,350			
Miscellaneous - Cemetery	1.6%	37,932	1.7%	40,026			
Development	0.1%	2,278	2.9%	67,605			
Interest on Long-Term Debt	<u>0.2%</u>	4,589	<u>0.2%</u>	5,152			
Total expenditures	<u>100.0%</u>	<u>\$ 2,442,117</u>	<u>100.0%</u>	<u>\$ 2,359,437</u>			

CITY OF LEBANON, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS

The City increased expenses in the governmental activities by \$82,680. In both years, the largest category of expense is public safety which consists of the City police department and ambulance services. Highways and streets, which include the street department, motor fuel tax expenses, and expenses paid out of the Municipal Utility Tax fund, was the second largest category of governmental activities expenses.

The above expenditure categories include amounts for depreciation expense on assets purchased in the current and prior years. The breakdown by category is as follows:

		<u>2021</u>		<u>2020</u>
General government	\$	8,881	\$	5,970
Public safety		26,808		22,043
Highways and streets		149,465	_	150,655
Total depreciation	\$_	185,154	\$	178,668

Total capital outlay expenditures for the governmental activities in the current year totaled \$87,324 which is lower in comparison to the current year depreciation.

BUSINESS-TYPE ACTIVITIES

Revenues by type	<u>2021</u>	<u>2020</u>
Water and sewer charges	\$ 1,899,745	\$ 1,897,106
Investment Income	18,802	80,877
	\$ 1,918,547	\$ 1,977,983

Water and sewer revenue for charges increased by \$2,639 in the current year. The City did not receive any grants related to the enterprise funds in the year ended April 30, 2021.

		2021		2020						
Operating Expenditures	Percent	<u>Amount</u>		Percent Amount		<u>Amount</u>		Percent	ź	Amount
Personal services	45.3%	\$	594,177	46.7%	\$	656,061				
Contractual services	34.8%		457,454	32.6%		457,959				
Supplies and materials	1.1%		13,790	0.8%		11,057				
Heat, light and power	5.3%		69,843	6.2%		87,187				
Depreciation	<u>13.5%</u>		177,790	<u>13.8%</u>		193,327				
Total expenditures	<u>100.0%</u>	\$	1,313,054	<u>100.0%</u>	<u>\$</u>	1,405,59 <u>1</u>				

Expenses in the business type activities decreased by \$92,537. As in the prior year, the largest categories of operating expense were for personal services and contractual services.

CITY OF LEBANON, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS

FUNDS FINANCIAL ANALYSIS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of 2021, the City's governmental funds reported combined ending fund balances of \$1,011,322, an increase of \$245,751 in comparison with the prior year. The total amount constitutes balances which are available for spending at the City's discretion. However, \$1,523,616 of the balance has been restricted or designated for specific purposes.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$(693,994). As a measure of the General Fund's liquidity, it is useful to compare the unassigned fund balance to total fund expenditures. Due to the negative balance in the General Fund, this calculation is not pertinent. The fund balance of the City's general fund decreased by \$2,741 during the current fiscal year.

The motor fuel tax fund reported an increase of \$120,901. This increase is related to motor fuel tax and Rebuild Illinois monies received which are greater than the amount spent on City projects in the current year.

Proprietary fund. The City's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the water and sewer funds at the end of the year amounted to \$2,258,936, an increase of \$883,071. The revenues and expenditures that make up this increase are discussed in the above paragraphs.

BUDGETARY HIGHLIGHTS

A comparison of appropriations and actual expenditures for the general fund is as follows:

 Budget
 Actual

 General Fund
 \$ 2,034,362
 \$ 1,970,960

The budget was not amended in the current year.

TRANSFERS

The City makes transfers between the governmental funds to assist in paying general expenditures and transferring unrestricted interest income. All transfers were from unrestricted funds.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

	Governmental Activities			Business-type Activities				Total					
		April 30, 2021		April 30, 2020		April 30, 2021		April 30, 2020		April 30, 2021		April 30, 2020	
Land	\$	96,345	\$	70,507	\$	-	\$	-	\$	96,345	\$	70,507	
Buildings and Improvements Vehicles and Equipment		78,456 243,895		85,585 238,029		12,976,750 63,863	1	1,570,949 64,607		13,055,206 307,758		11,656,534 302,636	
Infrastructure Systems		3,905,225		4,027,630		3,584,962	;	3,735,817		7,490,187		7,763,447	
Total net assets	\$	4,323,921	\$	4,421,751	\$	16,625,575	\$ 1	5,371,373	\$	20,949,496	\$	19,793,124	

The City's investment in capital assets for its governmental and business-type activities as of April 30, 2021, amounts to \$20,949,496, net of accumulated depreciation. This investment in capital assets includes land, buildings and improvements, equipment, vehicles and infrastructure. The total increase in capital assets for the current year was \$1,156,372. This increase is due to capital acquisitions of \$1,523,083 that were offset by current year depreciation expense of \$362,944. The largest outlays in the current year were related to expenditures for the WWTP upgrades and for a new vehicle. Capital assets are described in additional detail in Note 8 of the financial statements.

Long-term Debt

At the end of 2021, the City had total long-term debt obligations for governmental activities and business-type activities in the amount of \$101,815 and \$10,152,384, respectively, compared to \$168,710 and \$8,535,304 at the end of 2020. The City continued to makes draws on the debt agreement for construction upgrades on the WWTP.

	Government	al Activities	Business-ty	pe Activities	Total			
	April 30, 2021	April 30, 2020	April 30, 2021	April 30, 2020	April 30, 2021	April 30, 2020		
Notes Payable	\$ 101,815	\$ 168,710	\$ 10,152,384	\$ 8,535,304	\$ 10,254,199	\$ 8,704,014		

Other information related to long-term debt is described in more detail in Note 6 of the financial statements.

Requests for Information

This financial report is designed to provide a general overview of the City of Lebanon, Illinois' for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Clerk's office, 312 West St. Louis St., Lebanon, IL 62254.

RECONCILIATION OF THE STATEMENT OF REVENUES AND EXPENDITURES ARISING FROM MODIFIED CASH BASIS TRANSACTIONS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED APRIL 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ 245,751

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense (\$185,154) exceeded capital outlays (\$87,324) in the current year.

(97,830)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of those differences in the treatment of long-term debt and related items.

NOTES TO FINANCIAL STATEMENTS APRIL 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Lebanon, Illinois have been prepared in conformity with the modified cash basis of accounting for the Governmental Fund Types and the accrual basis for the Proprietary Fund Types as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

(a) The financial reporting entity

The City is a political subdivision of the State of Illinois. These financial statements present the government and its component units. Component units are legally separate entities for which the City is financially accountable. The City defines its reporting entity in accordance with Codification of Governmental Accounting and Financial Reporting Standards, Section 2100. Component units are organizations for which the City, as the primary government, is financially accountable. To be considered financially accountable, the organization must be fiscally dependent on the City or the City must appoint a majority of the board of the organization and either (1) be able to impose its will on the organization or (2) the relationship must have the potential for creating a financial benefit to or imposing a financial burden on the City. The City did not have any component units at April 30, 2021.

(b) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The primary government is also reported separately from legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function

and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements.

(c) Measurement focus, basis of accounting and financial statement presentation

The proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified cash basis of accounting. Accordingly, receipts are recorded when cash is received and disbursements are recorded when checks are written. Only assets representing a right to receive cash arising from a previous payment of cash are recorded as assets of a fund. In the same manner, only liabilities resulting from previous cash transactions are recorded as liabilities of a particular fund. Property taxes are recognized as revenues in the year for which they are received.

The government-wide financial statements are reported on the basis of accounting as used by the individual funds in the fund financial statements.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Motor Fuel Tax Fund accounts for the taxes received and amounts paid related to motor fuel tax expenditures.

The City reports the following major proprietary funds:

The Water and Sewer Funds account for all activities related to the billing, administration, distribution and collection processes of the water and sewer utilities. The City operates the water distribution system as well as the sewage treatment plant, sewage pumping stations and collection systems.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are reimbursements between funds for direct costs applicable to the other fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. All taxes are reported as general revenues of the City.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

(d) Assets, liabilities and net assets or equity

Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposits and short-term investments with original maturities of three months or less.

The City is authorized by state statute to invest in obligations of the United States of America, insured interest bearing accounts of banks, savings and loan associations or credit unions, certain short-term obligations of corporations organized in the United States, money market mutual funds that invest in obligations of the United States of America or its agencies or are guaranteed by the full faith and credit of the United States of America, the Illinois Funds and repurchase agreements of government securities. Investment income is recognized by fund in accordance with the accounting basis.

The Cemetery Care fund is authorized to invest in the same obligations of the City as well as preferred or common stocks. Investment income is recognized as earned.

All cash and investments are reported at fair value.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade receivables are shown net of an allowance for uncollectible.

Unbilled water and sewer utility receivables related to the business-type activities are recorded at year-end. They are determined by taking cycle billings subsequent to April 30 and prorating the applicable number of days to the current fiscal year.

Capital assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects when constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment are depreciated using the straight line method over the following estimated useful lives:

Type of Property	Estimated
And Equipment	<u>Useful Lives</u>
Buildings and Improvements	15 - 40 Years
Infrastructure Systems	15 - 50 Years
Vehicles and Equipment	5 - 10 Years

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net positions. Debt premiums and discounts are deferred and amortized over the life of the debt using the effective interest method.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund balances

In the fund financial statements, the City classifies the fund balances based upon the following criteria:

Nonspendable - includes amounts that cannot be spent because they are either 1) not in spendable form, or 2) legally or contractually required to remain intact.

Restricted - balances with constraints that are either externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation.

Committed - balances that are to be only used for specific purposes pursuant to constraints imposed by formal action of the City Council; the government's highest level of decision-making authority.

Assigned - balances that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned - the residual classification of the General Fund balance.

When expenditures are incurred for which the City has both restricted and unrestricted funds available, the City spends any restricted funds before using unrestricted sources. Likewise, the City uses committed, assigned and then unassigned balances, in that order, when spending amounts for which all three categories are available.

The following details the description and amount of all constraints recorded by the City in the fund financial statements:

Governmental Funds	
Nonspendable:	
Cemetery Trust	\$ 243,639
Restricted:	
Motor Fuel Tax	\$ 293,171
Police Funds	27,049
City Square Park	9,330
Additional Sales Tax	 474,489
	\$ 804,039
Committed:	
Municipal Utility Tax	\$ 719,577

(e) Estimates

The City uses estimates and assumptions in preparing these financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities and the reported revenues and expenditures. Actual results could vary from estimates that were used.

(f) Risk management

The City is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions and natural disasters for which the City carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

(g) Budget and budgetary accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The City Treasurer submits to the City Council a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to May 1, the budget is legally enacted through the passage of an ordinance.
- 4. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds and Enterprise Funds.

NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS

At April 30, 2021, the carrying amount of the City's deposits was \$4,248,456 and the bank balance was \$4,303,212. The deposits are comprised of checking, interest checking, money market funds and certificates of deposit.

<u>Custodial Credit Risk</u>. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City requires that all deposits be fully covered by FDIC insurance or collateralized with investments held by the financial institution in the City's name.

As of April 30, 2021, cash deposit balances of \$3,537,125, which were in excess of FDIC insurance, were collateralized with investments by the financial institution. Cash deposit balances of \$304,288 were in excess of FDIC insurance and were not collateralized with other investments.

At April 30, 2021, the City had the following investments:

	Weighted Average		
<u>Investment</u>	Maturity (Years)	Ī	air Value
Mutual Funds		\$	237,160
Deposits as reported above			4,248,456
Total deposits and investments		\$	4,485,616
As Reported in the Statement of Net Position:			
Cash and Cash Equivalents		\$	2,610,412
Investments			1,875,204
		\$	4,485,616

Interest Rate Risk. The City's investment policy limits investment maturities in order to maintain sufficient liquidity to reflect the cash flow needs of the fund type being invested. The policy also requires diversification of the investment portfolio via length of maturity as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. As of April 30, 2021, the City did not have a credit risk.

Concentration of Credit Risk. As of April 30, 2021, the City did not have a concentration of credit risk.

<u>Foreign Currency Risk</u>. As of April 30, 2021, the City did not have a foreign currency risk.

NOTE 3: <u>RECEIVABLES</u>

The City reports the following receivables for business-type activities in the statement of net position as of April 30, 2021. These amounts are reported net of the applicable allowances for uncollectible accounts.

Receivables:

Customer Accounts	\$ 122,804
Unbilled Revenue	<u>38,949</u>
	<u>\$ 161,753</u>

NOTE 4: INTERFUND TRANSFERS

The following is a summary of interfund transfers for the year ended April 30, 2021:

General Fund Transfer From (To):	
Cemetery Care Fund	\$ 3,763
Police Funds Transfer (To):	
Police Vehicle Fund	(9,779)
Police Vehicle Fund Transfer From:	
Police Funds	9,779
Cemetery Care Fund Transfer (To):	
General Fund	 (3,763)
	\$ -

Transfers were made between funds to transfer unrestricted interest income and to reimburse general costs.

NOTE 5: RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

Plan Description. The City's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

Funding Policy. As set by statute, members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year

2020 was 11.15 percent. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Covered Employees. The following types of employees comprise the membership of the plan.

Retirees and Beneficiaries	19
Inactive, non-Retired Members	13
Active Members	<u>24</u>
Total	<u>56</u>

Discount Rate. GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 2.00%; and the resulting single discount rate is 7.25%.

Actuarial Valuation Date	12/31/20
Measurement Date of the Net Pension Liability	12/31/20
Fiscal Year End	04/30/21
Development of the Single Discount Rate as of December 31, 2020	
Long-Term Expected Rate of Investment Return	7.25%
Long-Term Municipal Bond Rate	2.00%
Last year ending December 31 in the 2021 to 2120 projection period	
for which projected benefit payments are fully funded	2120
Resulting Single Discount Rate based on the above development	7.25%
Single Discount Rate calculated using December 31, 2019 Measurement Date	7.25%

The Long-Term Municipal Bond Rate is based on the Fidelity Index's "20-Year Municipal GO AA Index" as of December 31, 2020.

Actuarial Assumptions. The following are the actuarial assumptions used in the calculation of the net pension liability.

Asset Valuation Method Market Value of Assets

Price Inflation 2.25%

Salary Increases 2.85% to 13.75%

Investment Rate of Return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2020 valuation pursuant to an experience

study of the period 2017-2019.

Mortality For non-disabled retirees, the Pub-2010, Amount-Weighted, below-

median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements

projected using scale MP-2020.

Net Pension Liability. The following is a summary of the Net Pension Liability as shown as a liability in the financial statements.

Total pension liability

		<u>\$ (326,156)</u>

NOTE 6: LONG-TERM DEBT

The City has the following long-term debt as of April 30, 2021.

Governmental Activities

On August 11, 2014, the City entered into a loan to perform infrastructure projects for \$250,000. The loan is to be repaid by 84 monthly payments of \$3,105, including interest at 1.20%. The loan is secured by deposits at the bank. The loan is to be repaid from the Municipal Utility Tax Fund.

\$12,349

On December 3, 2014, the City entered into a loan to purchase a used street sweeper for \$116,350. The loan is to be repaid by 84 monthly payments of \$1,502, including interest at 2.30%. The loan is secured by the related equipment. The loan is to be repaid from the Municipal Utility Tax Fund.

<u>\$11,914</u>

On November 28, 2017, the City entered into a loan to purchase a 2018 Ford Explorer for \$29,645. The loan is to be repaid by 5 annual payments of \$6,233, including interest at 2.01%. The loan is secured by the related equipment. The loan is to be repaid from the General Fund.

\$6,105

On December 31, 2018, the City entered into a loan to purchase a 2019 Ford F450 Dump Truck for \$80,000. The loan is to be repaid by 84 monthly payments of \$1,084, including interest at 3.75%. The loan is secured by the related equipment. The loan is to be repaid from the General Fund.

\$ 55,628

On April 30, 2018, the City entered into a loan for \$80,000 of which the City made a draw of \$30,000 in the current year. The loan is to be repaid by monthly payments of \$1,418, including interest at 2.45%. The loan is unsecured and will be repaid from the General Fund.

<u>\$ 15,819</u>

Business-type Activities

On October 5, 2006, the City entered into a loan for construction of a new elevated water storage tank for \$1,100,000. The loan is to be repaid by 40 semiannual payments of \$35,809, including interest at 2.50%. The loan is to be repaid from the Water Fund.

\$ 457,301

On September 29, 2016, the City entered into a loan with First Federal Savings Bank of Mascoutah for ground storage tank renovations of \$300,000. The loan is to be repaid by 120

monthly payments of \$2,961, including interest at 3.00%. The loan is secured by inventory and equipment. The loan is to be repaid from the Water Fund.

\$176,827

On August 1, 2018, the City entered into a loan for construction of a new wastewater treatment plant for \$11,392,650. A portion of the loan, \$1,874,394, was forgiven by the State of Illinois. The loan is to be repaid by 60 semiannual payments through May 30, 2051, including interest at 1.38%. The loan is to be repaid from the Sewer Fund.

<u>\$ 9,518,256</u>

Annual debt service requirements to maturity for long-term debt are as follows:

	\$	8,872,796	\$	1,706,456	\$	225,014	\$ 10,354,238	\$	223,884

For the loans through the banks, upon default, the bank may declare the entire balance and related interest immediately due.

NOTE 7: PROPERTY TAXES

The City's property taxes are levied each year on all taxable real property located in the City on or before the last Tuesday in December. The City Council passed the levy on December 14, 2020. Property taxes attach as an enforceable lien on property as of January 1 and are payable in four installments. The County has not mailed tax bills as of April 30 and past mailing practices of the County have been subsequent to April 30 of each year. The City receives distributions of tax receipts beginning in July and August after the County mails the tax bills.

The following are the tax rates applicable to the various levies per \$100 of assessed valuation:

	Maximum	num Levy Years										
	Rate		<u>2020</u>		2019	<u>2018</u>						
Tax Rates:												
General	\$0.3300	\$	0.3106	\$	0.3238	\$	0.3223

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and City Council City of Lebanon, Illinois:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lebanon, Illinois as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the City Lebanon, Illinois' basic financial statements, and have issued our report thereon dated September 29, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Lebanon, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Lebanon, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Lebanon, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Lebanon, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and City Council City of Lebanon, Illinois:

Report on Compliance for Each Major Federal Program

We have audited the City of Lebanon, Illinois' ("City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Lebanon, Illinois' major federal programs for the year ended April 30, 2021. The City of Lebanon, Illinois' major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Lebanon, Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Lebanon, Illinois' compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Lebanon, Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended April 30, 2021.

Report on Internal Control Over Compliance

Management of the City of Lebanon, Illinois is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS APRIL 30, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

The accompanying Schedule of Federal Awards presents the activity of all federal award programs of City of Lebanon, Illinois. The City's reporting entity is defined in Note 1 to the City's financial statements. Federal awards passed through other government agencies are included on the schedule.

Basis of Accounting

The accompanying Schedule of Federal Awards is presented using the modified cash basis of accounting, which is described in Note 1 to the City's financial statements.

Noncash Assistance, Federal Insurance and Loans/Loan Guarantees

The City did not receive any noncash assistance, federal guaranteed loans or federal insurance for any of its programs for the year ended April 30, 2021.

Subrecipient Monitoring

The City did not provide any funds to subrecipients for federal funds.

Indirect Cost Rate

The City elected to use the de minimis indirect cost rate of 10%.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS APRIL 30, 2021

Part 1 -- Summary of Auditor's Results

- (a) The independent auditor's report expresses an unmodified opinion on the governmental activities and the business-type activities and fund financial statements.
- (b) No significant deficiencies or material weaknesses in internal control were disclosed during the audit of the financial statements which would be required to be reported in accordance with <u>Government Auditing Standards</u>.
- (c) No instances of noncompliance material to the financial statements were disclosed during the audit which would be required to be reported in accordance with <u>Governmental Auditing Standards</u>.
- (d) No significant deficiencies or material weaknesses in internal control over major federal programs were disclosed by the audit of the financial statements of the City.
- (e) An unmodified opinion was issued in the report on compliance for major programs.
- (f) The audit did not disclose any findings required to be reported in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.
- (g) The City's major program is Capitalization Grants for Clean Water State Revolving Funds CFDA #66.458.
- (h) The dollar threshold to distinguish between Type A and Type B programs is \$750,000.
- (i) The City did not qualify as a low-risk auditee under Section .530.
- Part 2 -- The City has no findings to the financial statements that are required to be reported in accordance with GAGAS.
- Part 3 -- The City has no findings or questioned costs for federal awards
